STAT KIT® Z-1000 Mobile ACLS highlights

The STAT KIT Z-1000 Mobile ACLS organizes its medications and medical devices into sections, compartments and trays, all clearly labeled and categorized into key areas of care. This allows the responder to immediately assess and treat the patient without searching for devices and medications.

A complete set of medications, devices, oxygen system*, and defibrillation* to provide:

- Basic Life Support
- Advanced Cardiac Life Support (ACLS) for up to 30 minutes

Always up to date

HealthFirst's Auto-Replenishment Service takes the guesswork out of staying up to date. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. Your practice benefits by extending the shelf life of medications, lowering costs, saving time, and gaining peace of mind.

OnTraq

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, national drug backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.
