

QUIDEL®

# Triage®

PRODUCT CATALOG

# Triage MeterPro

Combines sophisticated technology with user-friendly ergonomics to deliver high-performance testing in the laboratory or at the point of care (POC).

- Results in about 15-20 minutes
- Whole blood, plasma, or urine
- Largest immunoassay menu available in a POC platform
- Fluorescence spectrophotometer analyzer
- Customizable test panels via Test Select™ feature

## Triage MeterPro

Catalog #	Qty	Description
55070	1	Triage MeterPro
26213en	1	Triage MeterPro User Manual
80035A	1	Triage Supervisor CODE CHIP™ Module
52111	1	Triage Laser Barcode Scanner
52031	1	Triage Meter Printer Thermal Paper Roll
52040	25/Bag	Triage Transfer Pipettes

## Triage Data Management/Connectivity

Catalog #	Qty	Description
55069	1	Triage Census® ATM Software Kit (includes all the items listed below)
22643	1	Triage Census ATM Software Version 4.0 User's Guide
52140	1	Triage Census ATM Software Version 4.0 CD
52039	1	Triage Meter Serial Interface Cable (RS-232 DB9M-DB9F)

**Quidel** is a leading manufacturer of diagnostic healthcare solutions serving to enhance the health and well-being of people around the globe through the development of diagnostic solutions that can lead to improved patient outcomes and provide economic benefits to the healthcare system.

Our product base and technology platforms have continued to expand through internal development and acquisitions of other products and technologies allowing for a core competency that includes:

- Immuno and molecular assay development
- Automated manufacturing lateral flow (LF) technologies
- Direct fluorescent antibodies (DFA) production
- Monoclonal antibody characterization

Rapid POC testing for certain diseases has become a more accepted aide to centralized testing. POC tests are primarily performed in non-institutional settings such as physicians' offices, as well as specific areas of the hospital including emergency rooms, and at the patient's bedside. To meet this need, Quidel has added a diverse immunoassay menu in a variety of tests to provide you with diagnostic answers for quantitative BNP, CK-MB, D-dimer, myoglobin, troponin I and qualitative TOX Drug Screen.

# Triage<sup>®</sup>

The Triage MeterPro can aid in accelerating decision making for costly conditions including heart failure, acute coronary syndrome, myocardial infarction, thromboembolic events, and drug use.

*Designed to provide diagnostic results quickly and easily.*

# Tests available on the Triage MeterPro

## Triage BNP Test

The Triage BNP Test is a rapid, point of care fluorescence immunoassay to be used with the Triage Meters for the quantitative measurement of B-type natriuretic peptide (BNP) in EDTA anticoagulated whole blood or plasma specimens. The test is intended to be used as an aid in the diagnosis and assessment of severity of congestive heart failure (also referred to as heart failure). The test also is used for the risk stratification of patients with acute coronary syndromes and for the risk stratification of patients with heart failure.

## Triage D-Dimer Test

The Triage D-Dimer Test is a fluorescence immunoassay to be used with the Triage Meters for the quantitative determination of cross-linked fibrin degradation products containing D-dimer in EDTA anticoagulated whole blood and plasma specimens. The test is used as an aid in the assessment and evaluation of patients suspected of having disseminated intravascular coagulation or thromboembolic events including pulmonary embolism.

## Triage Cardiac Panel

The Triage Cardiac Panel is a fluorescence immunoassay to be used with the Triage Meters for the quantitative determination of creatine kinase MB (CK-MB), myoglobin and troponin I in EDTA anticoagulated whole blood or plasma specimens. The test is used as an aid in the diagnosis of myocardial infarction (injury).

## Triage TOX Drug Screen

The Triage TOX Drug Screen is a fluorescence immunoassay intended to be used with the Triage Meters for the qualitative determination of the presence of drug and/or the major metabolites above the threshold concentrations of up to 10 distinct drug classes, including assays for acetaminophen/paracetamol, amphetamines, methamphetamines, barbiturates, benzodiazepines, cocaine, methadone, opiates, phencyclidine, THC and tricyclic antidepressants in urine. The acetaminophen/paracetamol assay will yield positive results when acetaminophen/paracetamol is ingested at or above therapeutic doses.\*

	Myoglobin	CK-MB	Troponin I	BNP	D-dimer	TOX
Triage Cardiac Panel						
Triage Cardiac Panel (CK-MB and Troponin I)						
Triage Cardiac Panel (Troponin I)						
Triage BNP Test						
Triage D-Dimer Test						
Triage TOX Drug Screen APAP, AMP, mAMP, BAR, BZO, COC, MTD, OPI, PCP, THC, TCA						
Triage TOX Drug Screen-9 AMP, mAMP, BAR, BZO, COC, OPI, PCP, THC, TCA						
Triage TOX Drug Screen-7 AMP, mAMP, BAR, BZO, COC, OPI, THC						

\*Please refer to the Triage Package Insert for the complete intended use statement.

### Triage BNP Test

- Plasma or whole blood in EDTA
- Results in about 15 minutes

Catalog #	Qty & Format	Description
98000XR	25 tests	Triage BNP Test
98013XR	5 x 0.25 mL Vials	Triage BNP Control 1
98014XR	5 x 0.25 mL Vials	Triage BNP Control 2
98015XR	2 x 5 Levels	Triage BNP Calibration Verification

### Triage BNP Test for the Beckman Coulter Access Family of Immunoassay Systems

- Plasma sample in EDTA
- Results in about 15 minutes

Catalog #	Qty & Format	Description
98200	2 x 50 Tests	Triage BNP Reagent Packs
98201	2 x 3 Levels	Triage BNP QC Controls
98202	1 x 6 Levels	Triage BNP Calibrators

### Triage D-Dimer Test

- Plasma or whole blood in EDTA
- Results in about 20 minutes

Catalog #	Qty & Format	Description
98100	25 Tests	Triage D-Dimer Test
88753	5 x 0.25 mL Vials	Triage Total 5 Control 1
88754	5 x 0.25 mL Vials	Triage Total 5 Control 2
88755	2 x 5 Levels	Total 5 Calibration Verification

### Triage Cardiac Panel

- Plasma or whole blood in EDTA
- Results in about 20 minutes

Catalog #	Qty & Format	Description
97000HS	25 Tests	Triage Cardiac Panel
97022HS	25 Tests	Triage Cardiac Panel (CK-MB and Troponin I)
97021HS	25 Tests	Triage Cardiac Panel (Troponin I)
88753	5 x 0.25 mL Vials	Triage Total 5 Control 1
88754	5 x 0.25 mL Vials	Triage Total 5 Control 2
88755	2 x 5 Levels	Total 5 Calibration Verification

### Triage TOX Drug Screen

- Urine
- Results in about 20 minutes

Catalog #	Qty & Format	Description
94400	25 Tests	Triage TOX Drug Screen
94402	25 Tests	Triage TOX Drug Screen-9
94404	25 Tests	Triage TOX Drug Screen-7
94413	5 x 0.25 mL Vials	Triage TOX Drug Screen Control 1
94414	5 x 0.25 mL Vials	Triage TOX Drug Screen Control 2
